

GREEN GEN CYMRU LIST OF SUPPLIERS/SUBCONSULTANTS TOWY TEIFI

The following is a list of suppliers that are currently engaged in the supply chain for the Towy Teifi project to carry out non-intrusive surveys on behalf of Green Generation Energy Networks Cymru Limited.

We are publishing this list so that people affected by our surveys have a simple means of independently verifying whether personnel carrying out surveys are associated with us but it is published without prejudice to our discretion to instruct and authorise appropriate personnel to enter land to conduct surveys pursuant to our powers under the Housing and Planning Act 2016. The list is accurate at the time of writing and we may update the list from time to time at our discretion. On occasion we may instruct surveys to be carried out by different suppliers who are not yet on this list. In any event any person entering land pursuant to our powers under the Housing and Planning Act 2016 is required to be able to produce evidence of that authorisation.

Please contact Carter Jonas on the contact details provided in their correspondence with you if you have any further queries.

Supplier/Subconsultants GGC Rhiwlas

- a) Carter Jonas
- b) LSTC and their subcontractors APEM
- c) ARK Maintenance Limited.
- d) RSK Environment Limited
