

TOWY USK GRID CONNECTION CYSYLLTIAD GRID TYWI WYSG

Delivering the power Wales needs

HAVE YOUR SAY ON OUR UPDATED PROPOSALS
FOR THE TOWY USK GRID CONNECTION PROJECT

Consultation is open, we'd like to hear your views

Tuesday 6 October to Tuesday 24 November 2026.

Towy Usk is a proposed 132kV electricity connection that would connect between the proposed Nant Mithil Energy Park in Powys to a proposed National Grid connection point near Llandyfaelog, Carmarthenshire.

As demand for electricity continues to grow across Wales, the project would add much-needed capacity to the electricity network, helping to connect renewable energy generation and supporting a more secure, sustainable supply of clean, home-grown electricity for homes, businesses and communities.
